## CanDeal Update:

- Effective December 10, 2024, CanDeal Markets will reclassify The British Columbia Municipal Finance Authority (BCMFA) for display purposes within the Sell/Buy side applications to it's 'Agency' display pages as a Provincial Agency. BCMFA's primary function is to provide regional infrastructure financing for local and regional governments across British Columbia and this change is more reflective of it's peers within the space.
- Formed in 1970, MFABC is unique amongst its peers as the only public sector funding agency globally which has **direct taxation authority**.
- Because of MFA's ties to government and unlimited direct taxation power, MFA securities are liquid, AAA rated and considered **HQLA level 1** by many of its investors.

MFA Line of Business	Description	Market Positioning
<b>Long-Term Financing</b>	MFA's core business activity is providing long-term financing to local governments.	No competitors. By legislation, all long-term borrowing by municipalities and regional districts in British Columbia must be provided by MFA.
<b>Short-Term Financing</b>	MFA provides optional short-term financing to local governments.	Low competition. MFA is able to offer highly competitive short-term lending rates to BC local governments.
<b>Pooled Investment Products</b>	MFA provides optional investment products to local governments through its pooled fund offerings.	Highly competitive. However, MFA is able to provide local governments with broad exposure to different asset classes (vs. strict limitations set out in the Community Charter).
<b>Financial Education</b>	MFA provides high quality financial education.	Highly competitive. However, MFA provides local governments with unique financing and investing educational opportunities directly or through our key partners.

# DEBT, SINKING FUNDS & RESERVES

**Notes:** (1) MFA debt excludes short-term debt

(2) LG Holdings is comprised of cash and investments. Also, Data for BC LG Reserves at the end of 2024 has not been released yet, as a conservative estimate, interest as a percentage of reserves and reserve growth has been held steady from 2023 to 2024

# PROFIT, CAPITAL & LIQUIDITY METRICS

- Profits primarily come from our long-term lending program (earnings on sinking funds) where we allocate funds back to our clients in the form of an actuarial credit that reduces their annual loan payments
- The small net profit associated with long-term lending is held as retained earnings until distributed in the future
- Remaining profit from other lines of business and earnings on the retention fund form MFA's capital base alongside the debt reserve fund
- MFA has adopted a Capital Adequacy Policy & Framework that is structured on the same principals as OSFI Guidelines for Banks and provides capital and liquidity targets

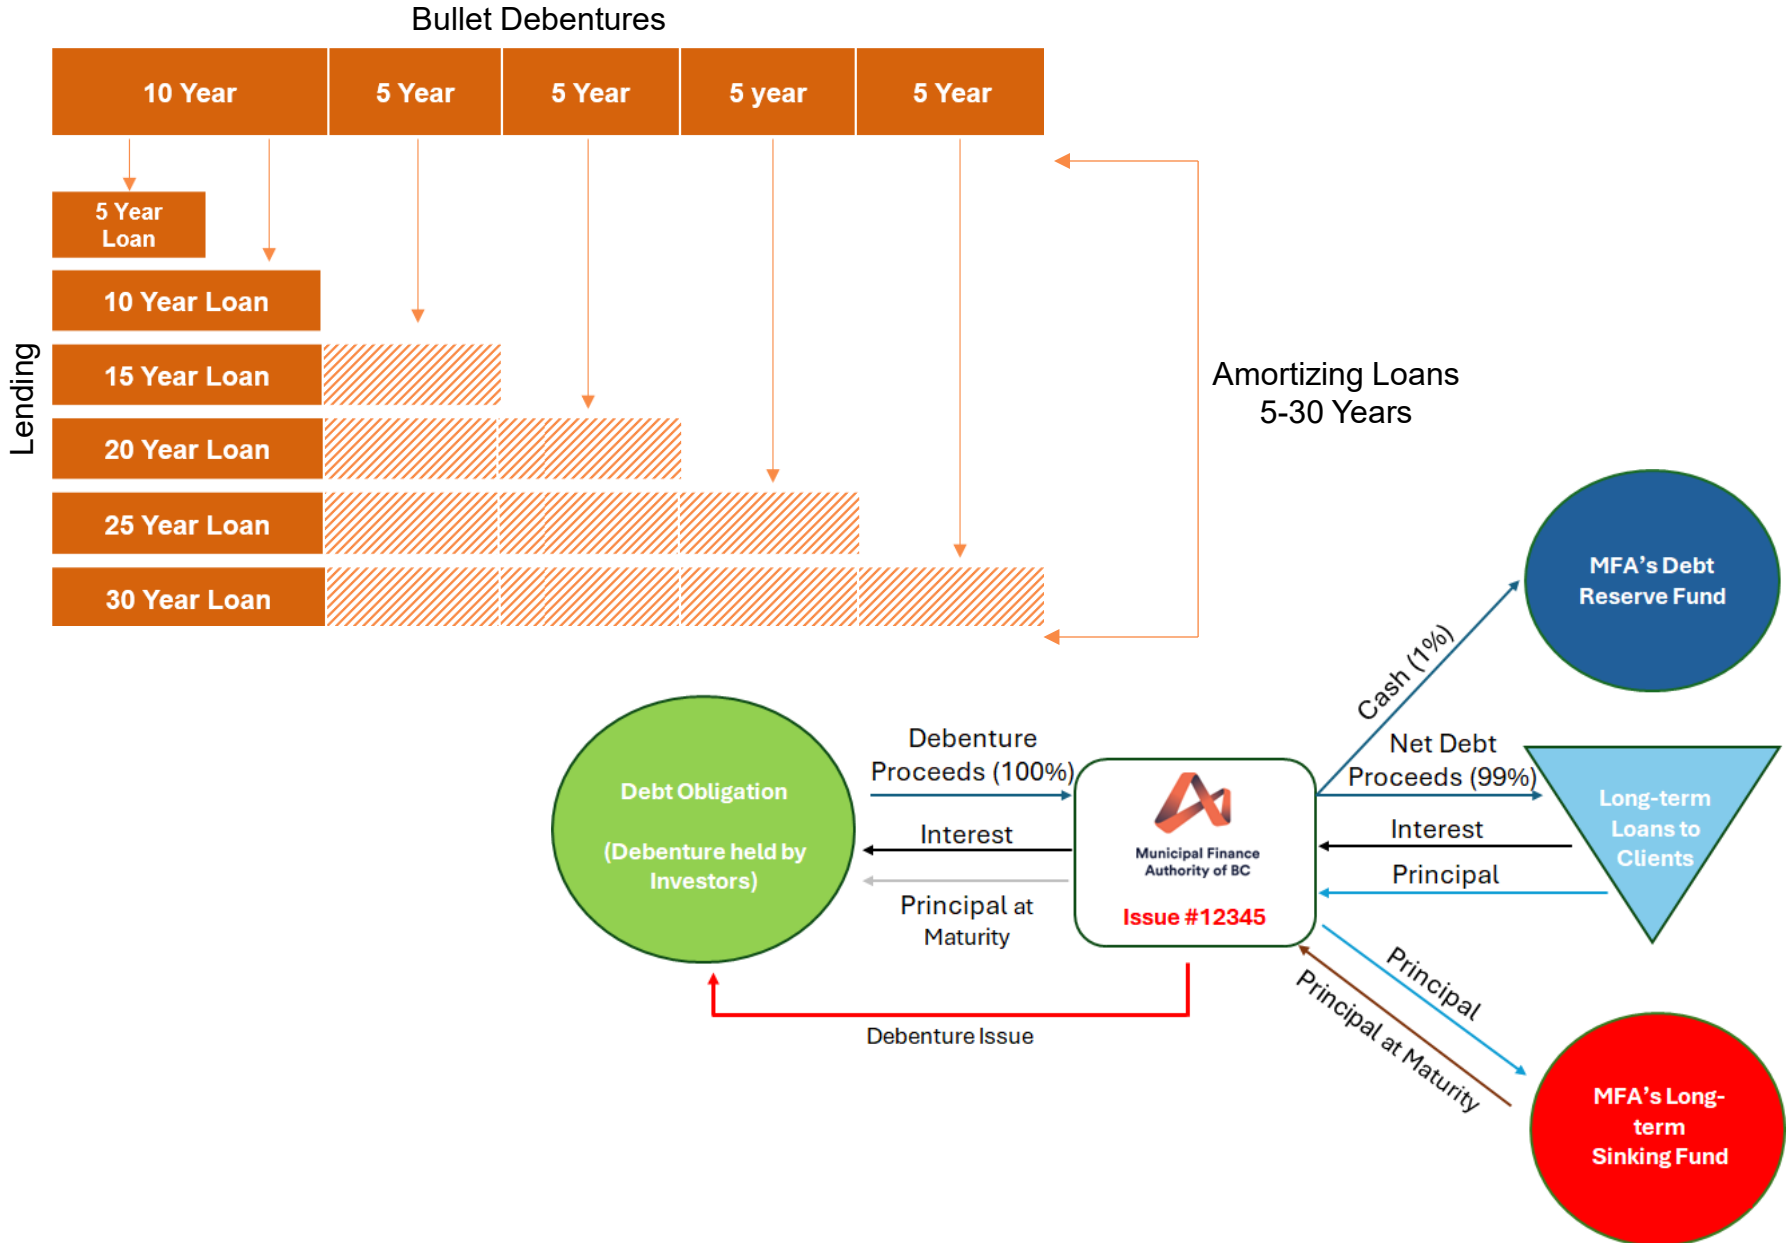

## Capital & Liquidity Metrics

	2022	2023	2024	Targets
<b>Capital</b>	\$224M	\$239M	\$253M

## Core ESG Objectives

- To reduce the negative impact of our operations on the environment and society
- To manage material risk to our core business and thereby retain access to the lowest attainable cost of capital for our members
- To pursue opportunities for transformative and material impact with local governments through our core lending and investing activities

## Issuance

The MFA continues to issue sustainability bonds based on our sustainable bond framework, we aim to provide investors with as much detail on the use of proceeds as possible. Currently we will not obtain a second party opinion, we are assessing other avenues with our auditors for example to provide limited assurance.

## Reporting

The following are issuance or annual issuer/entity-level reporting that we are currently doing or are working towards.

- Before each bond issue, use of proceeds and detailed project information outlined in our Appendix A and B will be made available and will remain on our website post bond issue
- Annual Bond Allocation and Impact Reporting on all active Sustainability bonds which will report on the allocation of proceeds to each of the MFA borrowing purposes, UN SDG's and Environmental and Social Objectives (aligned with ICMA categories)
- Annual GHG reporting on MFA's emissions from operations, but more significantly, our financed emissions from lending and investing activities
- Working towards including sustainability disclosures in our annual financial reports that will voluntarily conform to ISSB Standards (IFRS S1 and IFRS S2) in accordance with IFRS Voluntary Reporting Guide
